

Mohammad Hasnain Sayed

Head - ERP & Digital Transformation | Implementation & Customer Success Manager

sayedhasnain66@gmail.com | +91-7678059114 |

Mira Road, Thane.

Professional Summary

Customer Success and Implementation Leader with 6+ years of experience driving SaaS implementations, ERP transformation, and client success across Healthcare, Manufacturing, and FMCG domains. Currently working as Head - ERP & Digital Transformation, leading end-to-end ERP strategy, process optimization, digital initiatives, and cross-functional implementation teams. Skilled in requirement gathering, stakeholder management, UAT coordination, SLA management, and aligning business processes with technology solutions to ensure seamless deployments, operational efficiency, and high customer satisfaction. Proven ability to bridge business and technical teams, improve product adoption, streamline operations, and drive successful digital transformation initiatives from implementation through post-go-live support.

Key Achievements

- Delivered 45+ end-to-end SaaS implementations across Healthcare, Manufacturing, and FMCG domains.
- Maintained 98%+ SLA adherence, consistently achieving 3-hour FRT and 12-hour RT.
- Led 25+ MSR/QSR reviews with senior stakeholders, strengthening retention and escalation control.
- Selected for an international government healthcare integration project (Seychelles).
- Served as primary SPOC for enterprise clients, ensuring high CSAT and account stability.

Experience

Electrowaves Electronics Pvt. Ltd. | Head - ERP & Digital Transformation *Himachal Pradesh, India.*
Apr 2026 – Present

- Leading ERP adoption and digital transformation initiatives across 5 group companies, ensuring standardization of business processes and smooth inter-company operational coordination.
- Acting as the primary liaison between internal departments and ERP vendors for requirement gathering, solution discussions, issue resolution, customization tracking, and implementation planning.
- Driving ERP implementation across Sales, Purchase, Inventory, Production, and related operational modules to improve process visibility, accountability, and efficiency.
- Coordinating with management and department heads to identify operational gaps, optimize workflows, and implement technology-driven process improvements across multiple business units.
- Managing ERP master data accuracy including BOMs, inventory structures, item mapping, and process validation to support efficient production and reporting operations.
- Developing reporting systems, operational tracking methods, and digital workflows to improve decision-making, production monitoring, and overall organizational efficiency.

Bizom | Growth Consultant

Mumbai, India. | Nov 2025 – Mar 2026

- Led end-to-end implementation of Bizom's SaaS solution for FMCG clients, driving deployment, go-live execution, and post-go-live stabilization to ensure seamless transition into steady-state operations.
- Managed SLA governance by maintaining First Response Time (FRT) within 3 hours and Resolution Time (RT) within 12 hours, consistently preventing breaches and ensuring high service reliability.
- Conducted MSR/QSR reviews with CXO-level stakeholders, presenting performance insights, addressing escalations, and strengthening client confidence to drive renewals and

retention.

- Led requirement gathering workshops and prepared detailed Functional Specification Documents (FSDs) for enhancements, change requests, and workflow optimizations.
- Directed User Acceptance Testing (UAT) and collaborated with cross-functional Product and Technical teams to resolve defects, deploy releases, and ensure solution stability.
- Acted as the primary Single Point of Contact (SPOC) for key accounts, managing stakeholder communication, risk tracking, and issue resolution to maintain high customer satisfaction.

TranZact | Implementation Consultant

Mumbai, India. | Nov 2024 – Nov 2025

- Led 25+ end-to-end SaaS ERP implementations for manufacturing SMEs across Sales, Purchase, Inventory, and Production modules, ensuring successful go-live and stabilization.
- Managed a portfolio of ~20 active client accounts, driving onboarding, implementation planning, stakeholder coordination, and post-go-live adoption.
- Supervised and guided a team of Implementation Consultants, allocating tasks, tracking milestones, and ensuring timely project delivery across multiple parallel implementations.
- Collaborated with cross-functional teams (Product, Tech, Support) and client stakeholders to gather requirements, perform gap analysis, and configure solutions aligned with business workflows.
- Directed system configuration, master data migration, and User Acceptance Testing (UAT) to ensure smooth transition and minimal business disruption.
- Monitored project risks, maintained issue logs, and proactively resolved escalations to improve client satisfaction and overall implementation efficiency.

Manorama Infosolutions Pvt. Ltd | Functional Analyst

Mumbai, India. | Nov 2021 – July 2024

- Integrated Nair Hospital (MCGM), Wockhardt Hospitals and other major MCGM hospitals with HMIS System.
- Selected for an International Project in Seychelles, East Africa to integrate Lab Machine of Ministry of Health of Seychelles.
- Documenting business requirements, detailing issues and risks, and drafting business processes and data flows.
- Implementation & monitoring the proper functioning of ERP System.
- Practical knowledge of healthcare modules like EMR, EHR, Registration & Billing, LIS, RIS etc. and strong understanding of healthcare measures and guidelines.
- Troubleshooting incidents reported by end-users to schedule system changes and identify permanent solutions.
